

## **Science Court CD Series Correlation to Science IDEAS Energy, Force, and Motion Unit**

Each elementary school in the Palm Beach District was given 2 copies of all 12 Science Court CD Series products from the Instructional Technology department in the spring of 2002. If you do not know where this resource is in your school, ask your Technology Coordinator or Media Specialist.

The Science Court Explorations series was not purchased for schools in Palm Beach, but can be purchased from Tom Snyder.

If your school does not own these resources, you may purchase them from Tom Snyder Productions at [www.tomsnyder.com](http://www.tomsnyder.com) . The Explorations series come with the manipulatives needed for the hands-on experiments. You may (and should) purchase the manipulatives for the CD Series separately.

- Tab 3: Motion
  - Science Court CD Series Inertia
  - Science Court Explorations Rockets
- Tab 4: Force
  - Science Court CD Series Gravity
  - Science Court Explorations Magnets
- Tab 5: Energy
  - Science Court CD Series Work and Simple Machines
  - Science Court Explorations Pendulums
- Tab 6: Thermal Energy
  - Science Court CD Series Particles in Motion
  - Science Court Explorations Friction
- Tab 7: Sound
  - Science Court CD Series Sound
- Tab 8: Light
  - Science Court Explorations Heat Absorption
